Hey Al,

I don't think we have the funds for that this year, although we usually include a follow-up phone call with reviewers after the review is complete so the State folks can ask questions and get clarification. They could use this as an opportunity to ensure they are prepared to answer questions when they do hold the public meetings.

Thanks, Steve

Subject: Re: Fw: New Hampshire Reviews

Hello all,

Just wanted to say thanks again for supporting the Great Bay peer reviews. It has been incredibly valuable to have the capacity to conduct such reviews. Sometime in June/July the state would like to hold a public meeting to share the results of the peer review. The New Hampshire DES has asked whether it would be possible to have one of the peer reviewers or maybe Mike Paul attend the meeting. As you know, we are presently addressing a FOIA on the Great Bay criteria from Hall and Associates. Thought we'd run this by you to see what you think. Thanks for considering this request.

Steve -

Attached please find the completed reviews of the Great Bay Estuary nutrient criteria proposal from New Hampshire. Both Drs. Boynton and Howarth provided fairly thorough comments. I have also uploaded these to TREQS.

Respectfully -

Mike
